

澳門大學
UNIVERSIDADE DE MACAU
UNIVERSITY OF MACAU

INTERNATIONAL ADMISSION 26/27

The University of Macau (UM), founded in 1981, is an international public comprehensive university in Macau, and has become one of the most internationalized universities in the world. With English as the main medium of instruction, the University is committed to training and preparing our students as global citizens.

In recent years, UM has been taking initiatives for a comprehensive and structural reform and entered a new era of unprecedented growth. The University offers the research, cultural, social and recreational facilities that are expected from a top university and lots of greenery to facilitate learning, research and innovation.

GLOBAL OPPORTUNITY

UM provides students with a wealth of exchange activities which helps students develop a global perspective by exposing them to different cultures as well as broadens their horizons and knowledge.

UM provides students with a wealth of exchange activities which helps students develop a global perspective by exposing them to different cultures as well as broadens their horizons and knowledge. UM students can choose from over 180 institutions around the

world for exchange programmes or study abroad. The University also provides students with a wide range of summer programmes and internship opportunities, both local and overseas, in order to enhance their employability upon graduation.

SEMESTER EXCHANGE PROGRAMME

- To study at UM partner institution for one to two semesters
- Credits earned at host university can be transferred to UM
- Scholarships are available on a competitive basis

STUDENT RESEARCHER PROGRAMME

- To undertake research attachments at UM partner institution for 3 to 12 months
- Engaged in research activities under the supervision of the academic member(s) of the host institution

AULP MOBILITY PROGRAMME

- Programme provided by higher education institutions in Portuguese-speaking countries

ERASMUS+ PROGRAMME

- Non-regular project-based exchange programme hosted by the European higher education institutions

IAESTE INTERNSHIP EXCHANGE PROGRAMME

- Course-related overseas internships for students in the science and engineering disciplines during summer
- One-time subsidy will be provided after internship

10,000 TALENT PROGRAMME

- Programme provided by higher education institutions in mainland China during summer and winter break
- No programme fee is required

UM HAS BUILT EXCHANGE PARTNERSHIP WITH MORE THAN
180 INSTITUTIONS IN **37+ COUNTRIES**, INCLUDING THE FOLLOWING:

COUNTRY	PARTNER UNIVERSITY

U.K.	University of Leeds
U.K.	University of Surrey
U.S.A.	Stony Brook University
U.S.A.	Temple University
Vietnam	Vietnam National University, Hanoi

Full list of exchange partners, please visit gao.um.edu.mo

STUDY ABROAD

UM offers students the opportunity to gain valuable cross-cultural experience and to enrich their sense of appreciation of global issues. Through one to two semesters study abroad programme, students will gain a comparative perspective on their studied disciplines and related areas while developing their sense of international understanding

and increasing their cultural fluency. Students could have the opportunity to be sent abroad to study full-time at a world-renowned university. UM's study abroad partners includes University of Michigan, University of Rochester, University of Bristol and other universities in Portugal, United Kingdom, United States and China.

INTERNSHIP OPPORTUNITY

Internship is an opportunity for students to gain an early insight into the industry. Students are allowed to work alongside a professional in their chosen career area and learn about a career field from the inside and decide if this is the right

career field for them. It assists students' career exploration, leadership and skill development, establishing a network of professional contacts and resume enhancements. UM offer opportunities to undertake internships globally.

To nurture well-rounded graduates with multiple skills, UM adopts a “4-in-1” collaborative education model for undergraduate education, which consists of discipline-specific education, general education, research and internship education, and community and peer education. With a credit system and a college system, the university offers over 120 degree programmes at bachelor’s, master’s, and doctoral levels, covering a variety of fields.

INTERDISCIPLINARY RESEARCH

Interdisciplinary research is a key tenet of UM's research environment as it not only leads to exciting new discoveries but also enables different departments to share resources. Such a direction can promote the integration of modern technology with the numerous disciplines in humanities and social sciences of the university, and therefore enhance its innovation capacity and cultivate high-level, all-round talents.

"3+3+3+3" Strategic research

UM adopts a research policy that can be summarised as 'highlighting characteristics, academic disciplines that reflect Macao's characteristics, meet the needs of Macao and the country, and align with international

trends. UM has established a '3+3+3+3' strategic research layout that encourages interdisciplinary collaboration, especially the integration of modern technology in the humanities and social sciences.

Global & Local Impact

PROF. RUI MARTINS

Vice-rector (Global Affairs)

- Awardee of the Chinese Government's Friendship Award (2025)
- Vice-President (2021-2027), Association of Portuguese Speaking Universities
- Member of the Portuguese Academy of Sciences
- Life Fellow, IEEE
- Founding Chair, IEEE Macau Section
- Associate-Editor, IEEE Transactions on CAS II

PIONEERS ROBOTICS RESEARCH FOR AERIAL AND OCEAN VEHICLES

PROF. CARLOS SILVESTRE

Head,
Department of Electrical and Computer

- Ph.D., Instituto Superior Técnico, Portugal

Prof. Carlos Silvestre's research bridges advanced control theory and practical robotics applications, with a particular focus on autonomous marine and aerial vehicles.

"We have developed state-of-the-art algorithms for load transportation using aerial vehicles, enabling unmanned platforms to perform complex tasks such as coordinated heavy-load transport through multi-rotorcraft collaboration. These innovations have applications across various domains, including port crane automation."

INNOVATIVE TECHNOLOGIES SAFEGUARDING PUBLIC

PROF. QINGSONG XU

**Professor,
Faculty of Science and Technology**

- *Top 2% Scientists Worldwide*
- *Associate Editor of IEEE Transactions on Robotics*
- *Visiting Scholar at ETH Zurich, Switzerland*

Prof. Qingsong Xu's team (Department of Electromechanical Engineering) pioneered the "Smart Cleaner" intelligent robot to overcome the limitations of manual disinfection and safeguard public health through automation. The "Smart Cleaner" excels in crowded locations, capable of disinfecting 100m² within 10 minutes and achieving a remarkable 99% sterilization rate. This innovation demonstrates significant local impact by enhancing public health protection and showcases global potential for setting new standards in automated disinfection technology for smart cities worldwide.

PROF. WANHUAN ZHOU

**Head,
Department of Civil and Environmental
Engineering**

- *Member of American Society of Civil Engineers*
- *Ph.D., The Hong Kong Polytechnic University, Hong Kong*

Prof. Wanhuan Zhou's (Department of Civil Engineering) research tackles the critical challenge of ensuring the long-term safety of sea-crossing infrastructure like the Hong Kong-Zhuhai-Macao Bridge against complex environmental stresses and natural disasters. Prof. Zhou's team has developed intelligent algorithms and a specialized fiber grating sensor system to enable real-time deformation monitoring of the vital connection between an artificial island and the immersed tube tunnel. This innovative work, conducted in collaboration with the Hong Kong-Zhuhai-Macao Bridge Authority, enables predictive maintenance and advances the intelligent operation of this megaproject.

T-MSC, STEM CELLS WITH SIGNIFICANT DRAGGABILITY

PROF. XIN CHEN

**Director,
Institute of Chinese Medical Sciences**

- *Senior Scientist, National Cancer Institute - Frederick, NIH, USA*
- *Post Doc, University of Portsmouth, UK*
- *Ph.D., Radboud University, Netherlands*

Prof. Xin Chen's research focuses on uncovering the cellular and molecular basis for the immunoregulatory effects of Chinese medicine. His work specifically investigates the biological and pharmacological regulation of CD4+FoxP3+ regulatory T cells. This fundamental research is translated into developing novel immunotherapies and Chinese medicine-derived therapeutics for treating complex diseases like cancer and autoimmunity, bridging traditional knowledge with modern immunology.

PROF. RENHE XU

**Associate Dean,
Faculty of Health Sciences**

- *PI of a National Key R&D Project (RMB 30M)*
- *Executive editor of International Journal of Biological Sciences*
- *DSc University of Tokyo, Tokyo, Japan*

Professor Renhe Xu's pioneering stem cell research includes groundbreaking achievements such as developing the first animal-ingredients-free culture technique for embryonic stem cells. He also created an innovative ambient-temperature storage method that preserves stem cells for over seven days, greatly improving logistical feasibility. His applied work has produced T-MSC therapies for conditions including multiple sclerosis, fat graft enhancement, and diabetic foot ulcers, opening new pathways for regenerative medicine and advanced clinical treatment.

SMART TOURISM RESEARCH

PROF. LI MIAO

Head,
Department of Integrated Resort and
Tourism Management

- Executive Editor of *Journal of Hospitality and Tourism Research*
- Ph.D., The Pennsylvania State University, USA

Prof. Joseph Dexter's research tackles the critical challenge of linguistic equity in data science through interdisciplinary methods. The unique multilingual environment of Macao provides an ideal living laboratory for his work on language justice. This focus on equitable communication extends his groundbreaking research, which bridges diverse fields—from the deep analysis of classical literature to cutting-edge applications in public health.

Prof. Miao focuses on research into the interactive experience between humans and technology. She is enthusiastic about exploring the impact of AI on people's memories of travel destinations.

"Although the forms of travel have been constantly changing, what has remained unchanged throughout ages is that travelling is an innate human need and an integral part of life."

PROF. JOSEPH DEXTER

Assistant Professor,
Institute of Collaborative Innovation

- Awardee of Harvard Data Science Fellowship
- Ph.D., Harvard University, USA
- A.B., Princeton University, USA

ENTREPRENEURSHIP

Centre of Innovation and Entrepreneurship (CIE) of UM has been serving as an incubator since its establishment in 2019. In recognition of UM's remarkable efforts in the field of innovation and entrepreneurship, CIE was honored as a notional Co-working Space in 2020 by the Ministry of Science and Technology of China. CIE has successfully incubated more than 50 start-ups, including several star companies that have achieved notable commercial success.

OUTSTANDING INCUBATION TEAMS

► 2048 (Macau), Limited

2048 is currently the only company in Macau with the technology to craft artisanal beer and bring it to market.

By leveraging an independent laboratory and molecular extraction techniques, they blend traditional brewing craftsmanship with Eastern tea culture to create exciting new craft beers infused with distinctive tea flavors and aromas.

► BIOPETECH (MACAU) Limited Eco-friendly Brewer's Spent Grain (BSG) Cat Litter

The team utilizes malt residue from the beer industry as a plant-based fiber substrate to develop natural, eco-friendly, and high-quality cat litter products, providing superior options for feline companions.

RESIDENTIAL COLLEGE

FOR UNDERGRADUATE STUDENTS

UM adopts a holistic education system based on the residential college (RC) system, as a platform for the integration of the 4 types of education in the “4-in-1” model. This is unique among universities in Macau. There are currently 10 RCs at UM, undergraduate students from different academic disciplines live together in the RCs. As a complement to the faculty-based system, the RCs serve as a vehicle for whole-person education through systematic planning of experiential programmes. RCs aim to

nurture students into compassionate and socially responsible individuals with the ability for self-reflection amid a culturally diverse and intellectually stimulating environment, with the aim of nurturing students who are successful in their studies and of high moral character. The RCs strive to enhance students’ seven competencies: responsible citizenship, global competitiveness, knowledge integration, teamwork and collaboration, service and leadership, cultural engagement, healthy lifestyle.

POSTGRADUATE HOUSE

Postgraduate House is available for postgraduate students, offering comfortable and harmonic on-campus accommodation, as well as a variety of activities and services to develop students’ study, research and employability skill.

DINING & CAMPUS STORES

UM has a wide variety of dining choices for multi-culture students. There are food courts that provide East Asian food like Singaporean, Japanese, Chinese-style dishes such as BBQ pork and dim sum, Western-style like fish & chips. There are also fine-dining Chinese or Western restaurant. In addition, there are a variety of shops on campus, providing comprehensive services for daily needs, including supermarket, banks, book store, hair salons.

SPORTS FACILITIES

The University has various indoor and outdoor sports facilities and students will get free entry access to most of venues. Our indoor sports facilities include an Olympic-standard swimming pool, fitness room, sauna, sports pavilion, sport climbing wall, squash courts, badminton hall, table tennis room, dance room, etc.

STUDENT ACTIVITIES

UM is dedicated in developing students' interests and talents in cultural & arts activities, sports, and community service. Currently, there are 82 sub-organizations under the University of Macau Students' Union, 9 sub-organizations under the University of Macau Postgraduate Association, 10 cultural & arts university teams 19 sports teams & sports performing teams.

The University Teams actively participate in both local and international events, competitions, conferences and activities, with impressive achievements and contributions.

CULTURAL & ARTS UNIVERSITY TEAMS

- Symphonic Band
- String Orchestra
- Choir
- Chinese Orchestra
- Dance Troupe
- Public Speaking Team
- Mandarin Debating Team
- Cantonese Debating Team
- English Debating Team
- Portuguese Debating Team

SPORTS TEAMS & SPORTS PERFORMING TEAMS

- Badminton Team
- Dragon Boat Team
- Fencing Team
- Karate Team
- Korfball Team
- Martial Arts Team
- Rock Climbing Team
- Men's Soccer Team
- Squash Team
- Swimming Team
- Table Tennis Team
- Tennis Team
- Track and Field Team
- Men's Basketball Team
- Women's Basketball Team
- Men's Volleyball Team
- Women's Volleyball Team

STUDENT ACTIVITIES

SERVICE & SUPPORT TO STUDENT

- Student services (student Insurance, first student visa application for non-local students, locker rental etc.)
- Open a Bank Guide
- UM Career and Internship Fair
- Psychological counselling service
- Social work / counselling service
- Disability support services
- Further study, career and entrepreneurship services
- Venue reservation of student activity centre
- Innovation and Entrepreneurship Exchange visits
- Scholarships / academic prizes
- Summer programme
- Campus Training Programme
- Student Leadership Programme
- Cultural and arts activities on campus

FIND OUT MORE

ADMISSION REQUIREMENTS

FOR BACHELOR'S DEGREE PROGRAMMES

ACADEMIC QUALIFICATION

Applicants with any of the following qualifications may apply to bachelor's programme by Direct Admission.

- General Certificate of Education – Advanced Level (GCE A Level)
- Scholastic Assessment Test (SAT)
- American College Testing (ACT)
- International Baccalaureate Diploma (IB)
- Canadian Secondary School Qualifications
- Exames Nacionais do Ensino Secundário (ENES), Portugal
- Hong Kong Diploma of Secondary Education (HKDSE)
- General Scholastic Ability Test (GSAT), Taiwan region
- Unified Examination Certificate (UEC), Malaysia
- Mathayom Suksa 6, Thailand
- Sijil Tinggi Persekolahan Malaysia (STPM), Malaysia
- SMA Ujian Sekolah and SMA Ujian Nasional, Indonesia
- Exame Nacional do Ensino Médio (ENEM), Brazil

ENGLISH REQUIREMENT

Students applying for a programme with English as the main teaching medium have to attend an interview to evaluate the applicant's English proficiency for admission. Applicants who have attained one of the following results may be exempted from the said interview:

- 1) Test of English as a Foreign Language (TOEFL)
 - Internet-based test: a minimum score of 79;
- 2) International English Language Testing System (IELTS): Band 6.0 or above.
- 3) International General Certificate of Secondary Education (IGCSE):
Grade C or above in English subject.
- 4) For Malaysian students:
 - UEC-Senior English Language Grade B4 or above; or
 - SPM English Language Grade C or above; or
 - STPM English Language Grade C or above; or
 - MUET Band 4 (Aggregated Score: 180-219)

ADMISSION REQUIREMENTS

FOR MASTER'S DEGREE PROGRAMMES

ACADEMIC QUALIFICATION

An applicant of a Master's degree programme must possess a Bachelor's degree or academic background recognized as equivalent by UM. An applicant may also be required to possess other knowledge or professional experience.

Applicants currently studying in the final year of Bachelor's degree programmes may also submit applications. Successful applicants will be provisionally offered and will only be formally admitted upon successful completion of their Bachelor's degree programmes with overall result satisfying the requirements set by the respective programme.

Applicants should have achieved the equivalent* of an overall result of Grade C+ or better in the Bachelor's degree studies. (Except for the Faculty of Law). Applicants must fulfil the Language Proficiency requirement of the specific programme.

ENGLISH REQUIREMENT

Applicants who received their Bachelor / Master's degree from a university where the medium of instruction was not English are required to provide one of the following as proof of English proficiency:

- Obtained a Level 6 of the College English Test (CET) score of 430;
- Obtained a TOEFL[†] score of 550 (paper-based examination)/ 80 (Internet-based examination);
- An IELTS[†] overall score of 6.0 or above with no sub-score lower than 5.5;
- Passed the Level 4 or Level 8 of the Test for English Majors (TEM).

Some academic units may have different requirements for proof of English proficiency.

*The equivalent means 2.3 on the 4.0 GPA scale, 14 on the 20-point scale or 70 out of 100.

[†] TOEFL and IELTS scores are valid for two years from the test date.

FEES

TUITION FEES FOR ACADEMIC YEAR 2025/2026

INTERNATIONAL STUDENT SCHOLARSHIP

In order to welcome more outstanding international students to pursue their studies at UM, the University has established the International Student Scholarship which provides tuition and accommodation fee waiver for the awardees during their normal period of study (subject to annual continuation).

Students who have studied in an elementary/primary school, high/secondary school or higher institution outside China (i.e. outside mainland China, Macau SAR, Hong Kong SAR and Taiwan region) will be prioritized.

ELIGIBILITY

International applicants of full-time Bachelor's or Master's degree programmes (excluding executive degree programmes) of UM who meet the following requirements are eligible to apply for the Scholarship:

- valid foreign passport holders; and
- fulfill admission requirements of the respective degree programme.

INTERNATIONAL STUDENT SCHOLARSHIP

Scholarships for Bachelor's and Master's students may cover up to 100% of tuition fees plus 100% on-campus accommodation fees, awarded based on the applicant's qualifications.

FOR BACHELOR STUDENTS

▲ **UP TO MOP 556,400**
(≈ USD 69,800) PER STUDENT

- Tuition fee waiver for Bachelor's Degree Programme
- Accommodation fee waiver for Residential College

FOR MASTER STUDENTS

▲ **UP TO MOP 330,800**
(≈ USD 41,300) PER STUDENT

- Tuition fee waiver for Master's Degree Programme
- Accommodation fee waiver for Postgraduate House
- Monthly stipend

EXPERIENCE

Macau

Macau was a territory administered by Portugal and now a Special Administrative Region of China. Macau's architecture, art, religion, traditions, food and community reflect the integration of Chinese, Western and Portuguese cultures.

The Historic Centre of Macau was inscribed on the UNESCO World Heritage List due to its unique historical and cultural landscape. Thanks to its rich history and cultural diversity, in recent years, Macau has developed into a metropolitan city and currently positioning itself as the World Centre of Tourism and Leisure as it develops into a quality international tourist destination.

CLIMATE

Macau has a humid subtropical climate and seasonal changes are heavily influenced by monsoons, the climate is warm and humid with a fairly wide variation in temperature over the year.

EVENTS & FESTIVALS

Macau is a city of events and festivals, with an exciting calendar throughout the year. Other than traditional Festival like Lunar New Year and western festivals like Easter and Christmas, Macau hosts many large-scale international events

and festivals which varies from arts and film, to food and sporting events. The colorful decorations, costumes and crowd-pleasing events add another dimension to make Macau worth to visit with.

- Macau International Fireworks Display Contest
- Macau Grand Prix
- FIVB Women's Volleyball Nations League
- Macau International Marathon
- Macau International Music Festival
- Macau Arts Festival

ENTER MACAU

FOR INTERNATIONAL STUDENTS

International students should enter Macau or Hong Kong with a valid Entry Visa (Tourist Visa). You may be asked to present your **“UM Letter of Acceptance”** at Macau or Hong Kong immigration. This letter will be sent to you after your admission offer is confirmed.

1. VISA EXEMPT COUNTRIES

The Macau SAR Government allows visa-free entry for passport holders from 82 countries, permitting stays of 14–90 days. *Including Australia, Brazil, Germany, Italy, Indonesia, Japan, Korea, Malaysia, New Zealand, Philippines, Portugal, U.S.A., U.K.*

2. PRE-APPROVED VISA REQUIRED COUNTRIES

Students from the following 6 countries must obtain a Macau visa in advance (via a Chinese embassy or consulate through the diplomatic missions of China or other representative offices accredited by the Ministry of Foreign Affairs of China): *Bangladesh, Nepal, Nigeria, Pakistan, Sri Lanka, Vietnam*

Student Visa

3. NON-VISA-EXEMPT COUNTRIES

If your country (including Bhutan, Cambodia, Myanmar) is not on the visa-exempt list or the pre-approved visa list, you should:

- Apply for an entry permit upon arrival at any Macau border checkpoint, or
- Apply for “Authorization to Enter and Stay” in advance through
 - the Diplomatic missions of China, or
 - other representative offices accredited by the a Ministry of Foreign Affairs of China.

For further details, please visit: <https://www.fsm.gov.mo/psp/eng/main.html>

STAY PERMIT (STUDENT VISA)

The Student Affairs Office will assist international students with their stay permit applications after they arrive at UM.

ENTERTAINMENT
